

Rally Programme

The DCA does not run a safety boat. Dinghy cruising on exposed tidal waters is for experienced sailors only. Skippers must decide whether they and their boat can handle the expected conditions. Always check marine weather forecasts and local conditions before you sail, and remember there is no shame in deciding not to sail if you think conditions are more than you or your boat can manage.

South Coast

Tides BST/GMT Portsmouth Saturday, unless otherwise stated. For further information please contact relevant host. Members are usually at overnight venues by 1900h, but might be in the nearest pub by 2000h. All except Newtown can be reached by sheltered waters.

© = Discreet overnight camping possible, but no facilities.
